

ELEXON

11 January 2024

Phil Hare
BSC Panel

Dear Phil

Elexon Business Plan 2024/25

Thank you for your letter on behalf of the BSC Panel dated 8 January 2024.

I very much welcome the support you have provided for our proposed plan and note particularly the emphasis you place on Elexon maintaining the resource to fulfil our obligations under the BSC, maintaining the expertise that Parties need and expect from Elexon. As we have highlighted in our plan, we look forward to 2024 as the year that Kinnect completes, including decommissioning of our legacy systems and infrastructure. As you have identified, we remain committed to delivering the value from Kinnect both in terms of the flexibility this now gives us to support the energy transition but also the efficiencies that can then be realised for BSC Parties.

Throughout the course of my recent engagement with stakeholders across the industry, it is clear that the strong and inclusive governance of the BSC arrangements are highly valued by industry. Thank you for recognizing that it is vital that we continue to listen to all voices and bring our depth of market design experience to support the complex changes needed to support the sector change.

Once again, thank you for your support and for highlighting those things which we concur are critical for the successful delivery of the BSC and for Elexon.

Yours sincerely,

Peter Stanley
Chief Executive
